

## **Here is a proposed plan to determine if the sidewalks and parking lots adequately lit?**

We can collect the following features (points, lines and polygon locations) and attributes (information about each location) -

### **Light Pole**

Height in Feet  
Wattage  
Pole Material  
Condition  
GPS Date  
Comment

### **Sidewalk**

Width in Feet  
Surface  
Condition  
GPS Date  
Comment

### **Parking Lot**

Surface  
Condition  
GPS Date

### Comment

We will build this geodatabase together in the [GDB section](#) of this site. But first, a few reminders on things to consider when combining datasets in GIS.
