### ABOUT THE AUTHOR

#### Laura M. Levy

As a GIS Specialist for the BLM in Winnemucca, Laura led efforts to monitor stipulations and daily population figures at the Burning Man event, to inventory over 600-miles of route for travel management planning, and provided Trimble-certified GPS-to-GIS training to over 350 resource specialists. She is the founder of Integrated Mapping Strategies, a GPS/GIS consulting business emphasizing geographic fundamentals, hands-on training, and ongoing support. The Winnemucca-based company empowers clients by integrating strategic thinking and geospatial tools to provide documented, defensible data as the basis for informed management decisions.
